

Press Release  
September 30, 2010

## **Sumitomo (SHI) Demag Plastics Machinery to appoint Sebastian Dombos chief sales officer for Southern Germany**

**Dipl.-Ing. Sebastian Dombos, graduate engineer, has been appointed chief sales officer (CMO) for Southern Germany by Sumitomo (SHI) Demag Plastics Machinery GmbH of Schwaig/Germany, since August, 2010. The 33-year old, formerly the sales manager for the Nuremberg I sales territory, has thus taken over the South sales centre at the Schwaig based headquarters and will be in charge of sales activities throughout all of the southern German territory.**

Sebastian Dombos has graduated in mechanical engineering and industrial engineering/management, and has been a member of the sales force of Sumitomo (SHI) Demag for several years. After having been the head of the sales division for Spain and Portugal, Central and South America, he has been very successful in his activities as sales engineer for the benefit of customers in the Nuremberg I sales territory for the past four years.

Sebastian Dombos thus replaces Herbert Porstmann (63) who will retire well-deservedly after a seniority of twenty years.

Within the scope of the territorial reorganization the sales territory Nuremberg I attended by Sebastian Dombos will be distributed among several experienced sales engineers who have been in the employment of Sumitomo (SHI) Demag for many years.

With a sales force of seven sales engineers and a service team of twelve, the South sales centre will look after customers in the German states of Bavaria, Baden-Wuerttemberg, Hesse, Rhineland-Palatinate, and Saarland from the Schwaig location.

### **Sumitomo (SHI) Demag Plastics Machinery GmbH**

Sumitomo (SHI) Demag has markedly shaped the development of the plastics industry from the very beginning. Being a specialist for injection moulding machines for plastics processing, Sumitomo (SHI) Demag and its Japanese parent group are among the leading players in this sector globally.

At four production facilities in Germany, Japan and China respectively, more than 3,000 employees produce a comprehensive product range of all-electric, hybrid or hydraulic injection moulding machines with clamping forces from 180 kN through 20,000 kN. With its complete sales and service network, Sumitomo (SHI) Demag is well presented in all the industrial regions of the world. In addition to injection moulding machines, Sumitomo (SHI) Demag offers its customers throughout the world competent solutions for their specific performance requirements, starting from funding via technology or process development

including comprehensive automation systems up to  
customized servicing concepts.
